*"My desire is to connect everyone to the Mother. My deeper aim is to send everyone to Mother. Once you enter into your Mother's home, She will take care of you and give you what you really want. Once you connect to Her, from that point your real life will start in spirituality. You can start to open the hearts of thousands of people. You can start to give miraculous healings. Then your real life will be fulfilled." -- Sri Kaleshwar*
