

## ॐ SAI SHAKTI HEALING SESSIONS

### HEARTBREAK RELEASE

#### HEALING YANTRAS

Our sessions resonate uniquely with the individual needs of each person. Whether a physical, emotional, mental or spiritual healing shift is necessary, the shakti (energy) will help create a balanced state in which healing can then take place.

The dissolution of & relief from heartbreak requires powerful healing at the soul level, often with additional processes for recipients to use at home.

Yantras, or sacred energy diagrams, can increase protection circles for individuals/families & facilitate on-going healing.

We also offer distance healings.

## ॐ FIRE HOMAS (CEREMONIES)

Powerful homas, fire ceremonies, are traditional in the Vedic systems of healing & meditation. The fire element significantly amplifies the healing process while charging the souls of those attending the homa.

The impact of one homa fire on the soul is roughly equivalent to a month's worth of intense meditation.

## ॐ VAASTU CONSULTATIONS

Vaastu, the ancient Vedic knowledge from which Feng Shui derived, is the science of combining home architecture & arrangement with the energies of the five elements of creation - earth, fire, sky, water and air - and the cardinal directions.

Proper application of vaastu principles can help balance 80% of life's problems, including issues of health, wealth, relationships & family troubles.

## ॐ MEDITATION INSTRUCTION

An on-going meditation practice is vital to keep the healing energy flowing.

Every human being has the innate capacity to connect to the Source.

Our expertise lies in giving methods to amplify and develop that connection quickly & easily.

## ॐ SATSANG

We offer regular satsang events to support people's on-going meditation practices, healing, & spiritual awakenings at all different levels.

Shakti Satsang (literally: 'energized spiritual truth in community,') includes a group discussion around a spiritual topic, and a healing meditation.

To open the hearts and deepen the peaceful, uplifting meditation energy, we add sacred singing (bhajans).

## ॐ MUSIC AS MEDICINE CONCERTS

Sacred music, bhajans or kirtan, is considered to be one of the nine doorways to the divine.

Music is the universal language that speaks directly to the heart,

bringing peace & joy to everyone it touches. That peace & joy creates a place where healing can occur naturally.

Through both the full bhajan ensemble, *The Mystic JAMMS Band*, & the smaller version (a duo called *Om Sai*), these healing concert experiences are lifting the hearts & minds & souls of audiences around the world.

In each divine power place, we lead deep group meditations, giving techniques to access the different energies. Vibrant discussions about the sacred mechanisms at play expand group insights.

The understanding & energy experiences you'll gain, from ancient yogic traditions in India, will transform your awareness about how the divine operates in this planet, and how power spots are lifting the souls of people from any & all religious or spiritual traditions.
